**QUESTION 1**

In which strategy would the change control process be recorded?

- A. Quality Management Strategy
- B. Configuration Management Strategy
- C. Risk Management Strategy
- D. Communication Management Strategy

Correct Answer: B

---

**QUESTION 2**

**HOTSPOT**

The project has a cost tolerance of +5% I.5%, of which stage 2 has a tolerance of +£45k 1-£45k.

Lines 1 to 6 in the table below consist of an assertion statement and a reason statement. For each line identify the appropriate option, from options A to E, that applies. Each option can be used once, more than once or not at all.

Hot Area:

	Assertion		Reason	
1	If stage 2 exceeds its target by £20k the Stage Plan should be replaced by an Exception Plan.	True-False	When the Stage Plan is updated with activities to deal with any deviations from planned cost and time, this is called an Exception Plan.	True-False
2	The Team Plan required for the development of the service level agreement should be produced in consultation with supplier assurance.	True-False	Supplier assurance should confirm that Team Plans are in accordance with relevant supplier standards.	True-False
3	The Stage Plan for stage 2 should be prepared during the initiation stage.	True-False	All Stage Plans are produced near the end of the initiation stage.	True-False
4	A final stage (stage 5), covering project closure, should be added to the Project Plan.	True-False	The Project Plan covers all management stages.	True-False
5	The cost tolerance planned for each stage should be +5% ' 5%.	True-False	Project tolerances for cost and time should always be allocated equally between all of the stages.	True-False
6	The key deliverables and estimates from the feasibility study should provide a major input to the Project Brief.	True-False	The feasibility study should confirm all project costs.	True-False

Correct Answer:

	Assertion		Reason	
1	If stage 2 exceeds its target by £20k the Stage Plan should be replaced by an Exception Plan.	True-False	When the Stage Plan is updated with activities to deal with any deviations from planned cost and time, this is called an Exception Plan.	True-False
2	The Team Plan required for the development of the service level agreement should be produced in consultation with supplier assurance.	True-False	Supplier assurance should confirm that Team Plans are in accordance with relevant supplier standards.	True-False
3	The Stage Plan for stage 2 should be prepared during the initiation stage.	True-False	All Stage Plans are produced near the end of the initiation stage.	True-False
4	A final stage (stage 5), covering project closure, should be added to the Project Plan.	True-False	The Project Plan covers all management stages.	True-False
5	The cost tolerance planned for each stage should be +5% ' 5%.	True-False	Project tolerances for cost and time should always be allocated equally between all of the stages.	True-False
6	The key deliverables and estimates from the feasibility study should provide a major input to the Project Brief.	True-False	The feasibility study should confirm all project costs.	True-False

**QUESTION 3**

Scenario Additional Information Further information on some resources who could be involved in the project:

**Outcome Account Manager:** He represents Outcome which is a recruitment agency that provides specialist outsourcing resources. Outcome provided the consultants who carried out the feasibility study and the same consultants will be providing support and guidance to the Information Technology and Facilities teams during the project. **Director of Finance Division:** She was transferred from the Information Technology Division 12 months ago. She is responsible for ensuring a cost-conscious approach is adopted in all operational and project activities across the Ministry of

Food Hygiene.

**Hardware Manager:** Reports to the Director of Information Technology. He provides computer hardware to all business functions but has little awareness of the needs of his colleagues working in software.

**Payroll Manager:** Reports to the Director of Finance. He is a very experienced and efficient qualified accountant who has much of the responsibility of running the Finance Division on behalf of the Director of Finance. He has been involved in

drafting the Ministry's business strategy and assisting in a full business risk assessment. He also drafted the corporate Business Case standards.

Which 2 alternative actions apply to the proposed Senior User for this project?

- A. Retain because he provides the outsourcing resources required to support the project.
- B. Replace with "Director of Research and Development" because she deals with both the Information Technology and the Facilities Divisions and can make sure her division's needs are specified.
- C. Remove because he has no authority to commit user resources.

D. Add \\Hardware Manager\\ because he provides computer hardware to all business functions and will be impacted by the outcome.

E. Retain because he will be providing support to the Information Technology and Facilities teams during the project.

Correct Answer: BC

---

#### QUESTION 4

While planning the initiation stage, the Project Manager reviewed some threats that had been recorded in the Daily Log. Which threat should have been assessed for possible risk responses to be included in the Initiation Stage Plan?

A. MFH has no experience in outsourcing and this may affect understanding of what is required, resulting in inadequate plans and strategies.

B. The Project Brief is a complex document and may not be approved by the Executive.

C. There is a shortage of service providers so there is a possibility that no suitable service providers respond to the request for proposals. This would prevent the Outsourcing project from proceeding.

Correct Answer: C

---

#### QUESTION 5

Scenario

Additional Information

Extract from the Communication Management Strategy.

The project information in the table below is true, but it may not be recorded under the correct heading or be in the correct document.

<b>Introduction</b>	1. This document contains details of how the project management team will send information to individuals working on the Calendar project, and receive information from them.
<b>Communication procedure</b>	2. See MNO Manufacturing Company standards for all internal company communications.
<b>Tools and techniques</b>	3. Use the staff newsletter to launch the label design competition and to promote the chosen label design. 4. Using the number of responses to the label design competition as a measure, report fortnightly to the Project Board on the effectiveness of the staff newsletter as a vehicle for communication. 5. Use the company website to advertise the promotional calendar to customers.
<b>Records</b>	6. A record should be maintained for each product of the project. As a minimum this should show the project name, product name, product title, and version number. 7. External email and correspondence relating to the Calendar project should be recorded electronically in the project folder. 8. Information received in hard copy should, where possible, be scanned and filed as above.
<b>Timing of communication activities</b>	9. At the end of each stage, audit and report on the performance of the communication methods being used. 10. Highlight Reports to be provided to appropriate stakeholders, at the frequency defined in each Stage Plan.
<b>Stakeholder analysis: Interested parties</b>	11. Photographer. 12. Print company.
<b>Information needs for each interested party</b>	13. Weekly updates will be provided by email to the individual producing the staff newsletter. 14. Engineering Manager is to be consulted when preparing the photo session schedule.

Using the Project Scenario, select the appropriate response to each of the following 5 questions which have been raised by the Project Board. The project is now at the end of the initiation stage. Having decided that the Calendar project is a relatively simple project, the Project Manager combined the Starting Up a Project process and the Initiating a Project process. No Project Brief has been produced. Instead the Project Manager used the project mandate to produce a simple Project Initiation Documentation (PIO). The PIO includes the Business Case, a product checklist and several Product Descriptions, including the Project Product Description. Short sections are also included for each of the strategies and the controls to be applied. The Project Manager has elected to use the Daily Log to record all risks, issues, lessons and quality - results. After the initiation stage there will be two further stages during which a small number of Work Packages will be authorized. While these are being managed, the Project Manager will hold regular checkpoints, which will support the production of weekly Highlight Reports to the Project Board.

There is no mention of any Stage Plans, yet there are two further stages proposed. How will this be resolved?

A. It is appropriate for the Calendar project to be run as two further stages as there is a key decision to be made at the end of stage 2. Stage Plans will be produced.

B. Whilst the activities are divided into two further stages, there is no reason why the Calendar project should use stages. The project will therefore be run as a single stage project and the activities will be added to the Initiation Stage Plan.

C. There will be three Stage Plans, the two management stages plus an additional stage to plan and complete the activities of the Closing a Project process.

Correct Answer: A
