QUESTION 4

A UX Designer is creating an experience to help organize content into collapsible sections.

Which Lightning component should be used?

A. Einstein Next Best Action

B. Lightning Toggle

C. Accordion

D. Highlights Panel

Correct Answer: C

The Lightning Accordion component is designed to help create an organized, collapsible display of content. It is composed of a header and a body, which can be used to display different sections of content in an organized way. The body of the Accordion is hidden until the header is clicked, allowing the user to quickly and easily access the content they need. Salesforce provides a detailed guide to using the Accordion component, including examples and code snippets, which can be found here: https://developer.salesforce.com/docs/component-library/documentation/lwc/lwc.use_accordion.

QUESTION 5
