QUESTION 1

To support the deployment of a new provisioning system, a company wants to install and configure a production domain with Oracle SOA Suite and Oracle Service Bus.

Which statement is true about the required effort?

- A. Separate domains must be configured for Oracle SOA Suite and Oracle Service Bus.
- B. The Oracle Repository Creation Utility (RCU) must be run twice to create the required schemas.
- C. The installation of Oracle SOA Suite includes the installation of Oracle Service Bus.
- D. A supported version of WebLogic Server must be installed before installing Oracle SOA Suite.

Correct Answer: D

QUESTION 2

Which two statements are true about Complex Event Processing (CEP)?

- A. It is a method to achieve the best outcome in a model where data is already stored in a relational database.
- B. It is a technique used for querying data prior to it being stored within a database or without it ever being stored.
- C. It is a highly efficient method of analyzing and processing streams of data.
- D. It is a technique for rapidly storing large amounts of unstructured data.
- E. It executes extremely complex queries against a database using a new query language.

Correct Answer: BD

QUESTION 3

Which two statements accurately describe how Oracle Web Services Manager works?

- A. On the client side, the agent coordinates a pipeline of policy interceptors that apply policy assertions to a request in a standardized, predetermined order.
- B. On the service side, policy assertions are processed in reverse order of the client side before a request is delivered to the service.
- C. On the client side, the policy manager coordinates a pipeline of agents that apply policy assertions to the request in the order specified by the developer.
- D. On the service side, policy assertions are processed in the same order as on the client side before a request is delivered to the service.

Correct Answer: AC

QUESTION 4

Which statement is true about the relationship between the WSDL and the JCA binding file when working with an Oracle Adapter at design time?

- A. The WSDL references the appropriate JCA binding file for each applicable operation in the WSDL "binding" element.
- B. All operations defined in the WSDL must be mapped to activation specifications in the JCA binding file.
- C. The JCA binding file defines default adapter property values for each applicable operation defined in the WSDL.
- D. There is no direct relationship between the WSDL and the JCA binding file at design time.

Correct Answer: C

QUESTION 5

You want to monitor a specific BPEL process variable in your process. You have all the capabilities of Oracle SOA Suite at your disposal. Which approach do you take if you want the variable data written to a JMS queue to be processed by another application?

- A. Identify the variable as a key performance indicator (KPI) and track it inBAM.
- B. Use a composite sensor on the appropriate service or reference binding.
- C. Use a BPEL Process Manager sensor to collect the value and context.
- D. Use Oracle Event Processing (OEP) to monitor the activities being executed in the BPEL process.

Correct Answer: C

QUESTION 6

Which two statements accurately describe policy attachment in Oracle Web Services Manager (OWSM)?

- A. The order in which policies are attached to a subject determines the order in which the policies are executed.
- B. JDeveloper groups the policies that can be attached into five categories of interceptors.
- C. Multiple WS-Addressing policies can be attached to a policy subject.
- D. In Enterprise Manager Fusion Middleware Control, a security policy can be attached to a web service and it can be either enabled or disabled.

Correct Answer: AC

QUESTION 7

When more than one policy is attached to a policy subject, the combination of policies needs to be valid. Which

statement is true about the valid combination of policies for a policy subject?

- A. Only one MTOM policy can be attached to a policy subject.
- B. More than one Reliable Messaging policy can be attached to a policy subject.
- C. You cannot have both a Reliable Messaging policy and a WS-Addressing policy attached to the same policy subject
- D. Only one security policy can be attached to a policy subject

Correct Answer: A

QUESTION 8

BPEL processes are being used to implement both the service and client sides of a synchronous web service interaction.

Which statement is true?

- A. When acting as the client, a BPEL process may omit the Invoke activity.
- B. When acting as the service, a BPEL process may omit the Reply activity.
- C. When acting as the client, a BPEL process may not invoke as asynchronous process and wait for a callback.
- D. When acting as the service, a BPEL process may not reply to the client with a well-defined fault message.

Correct Answer: D

QUESTION 9

You defined an event. You now want to trigger that event from an existing Mediator component.

How do you link the event to the Mediator so that the Mediator can raise the event to the Event Delivery Network (EDN)?

- A. Use the SOA composite editor to specify the event as a property on the incoming wire into the Mediator component.
- B. Use a text editor to modify the .edlfile that defines the event so that the Mediator is identified as a publisher.
- C. Use the SOA Composite Editor to add a raise action to the Mediator's .mplan specification file.
- D. Use Enterprise Manager to associate the Mediator with the appropriate event.

Correct Answer: C

QUESTION 10

Which statement is false about Oracle Business Activity Monitoring (Oracle BAM)?

- A. Oracle BAM uses the same Oracle Coherence technology for caching and high availability that many WebLogic

Server applications utilize.

B. Oracle BAM data objects are based on the Star schema and that makes it easier to share data with business intelligence applications.

C. If you have remembered to install the Oracle Complex Event Processing Service Engine, Oracle BAM can use it for real-time data analysis.

D. Sophisticated ADF components, such as treemaps, scatter charts, and bubble charts, may be easily incorporated into executive dashboards.

Correct Answer: C

QUESTION 11

Which two statements are true about the role of a Continuous Query Language (CQL) processor in a Oracle Event Processing application?

A. It primarily executes SQL statements against the database.

B. It can be used to filter, aggregate, and correlate events in memory and can integrate with Coherence, NoSQL, and HDFS.

C. It invokes human workflows to deal with exception handling.

D. It can perform spatial queries as well as complex

Correct Answer: AC

QUESTION 12

To avoid the purchase of new server capacity, a company must limit the volume of messages routed to a computationally expensive RESTful service operation.

Which Oracle SOA Suite component can help the company meet this requirement?

A. BPEL process

B. Mediator

C. Proxy Service

D. Business Service

Correct Answer: D

QUESTION 13

Which dashboard should you use to gauge the overall efficiency of a user for a specific process?

A. workload per process on a standard dashboard

- B. workload per participant on a standard dashboard
- C. performance per participant on a standard dashboard
- D. a custom dashboard

Correct Answer: B

QUESTION 14

Which expiration and escalation setting can be used to route a task a specified number of levels up a management chain if the assignee does not respond in a given time period?

- A. Never expire
- B. Expire after
- C. Route to manager
- D. Renew after
- E. Escalate after
- F. Management chain

Correct Answer: A

QUESTION 15

When you create an assert in a test case, you can specify a Compare By rule of xml-identical or xmlsimilar. The rule designates the strictness of the comparison.

If you choose xml-similar, identify two conditions that will cause the comparison to fail.

- A. The namespaces are the same, but the namespace prefix is different.
- B. An element has the same child attributes, but they are in a different order.
- C. An element has a different name, but the same child attributes are in the same order.
- D. The namespaces are different, but the namespace prefix is the same.

Correct Answer: D
