- E. Create storage pools first, then create NSS volumes, and then create disk partitions.
- F. Create NSS volumes first, then create disk partitions, and then create storage pools.

Correct Answer: B

QUESTION 3

You are planning to deploy Novell Open Enterprise Server services on an existing NetWare 6.5 server. Which Support Pack must be installed on the server before you can do this?

- A. NetWare 6.5 Support Pack 1
- B. NetWare 6.5 Support Pack 1a
- C. NetWare 6.5 Support Pack 2
- D. NetWare 6.5 Support Pack 3

Correct Answer: D

QUESTION 4

One of your clients owns a company that runs three shifts of employees each day. To save money, the client has purchased only enough workstations for a single shift of employees. Each employee shares his or her computer with two other employees who work different shifts. The client has a very high employee turn-over rate. The average employee only works there for 6-9 months. Based on this information, which of the following security policies should you consider implementing? (Choose 2.)

- A. Force periodic password changes.
- B. Use a volume other than SYS for home directories.
- C. Restrict user logins times to the user's shift hours.
- D. Avoid assigning rights through the All Properties option.
- E. Assign file attributes in addition to file trustee assignments.

Correct Answer: AC

QUESTION 5

A new employee has been hired by your company. She will be a member of a workgroup that creates your company's marketing materials.

All workgroup files are stored on the WIDGET2 server in the MASTER directory on the DATA volume. She needs to be able to open and read existing files as well as modify them. She will also need to be able to create new files as well as

delete old files. She will need to modify the file names of existing files from time to time. What rights assignments does she need to the MASTER directory to accomplish her work?

- A. Read
- B. Read, File Scan
- C. Read, Write, Create
- D. Read, Access Control
- E. Read, Write, File Scan
- F. Read, Write, Create, Erase
- G. Read, Write, Create, Erase, Modify

Correct Answer: G
