QUESTION 1

Which feature does the optional Digital Sending Software add to the HP LaserJet MFPs?

A. smart compression of images

B. ability to search for e-mail addresses

C. ability to send to a network printer

D. ability to send data to an SMTP server

Correct Answer: D

QUESTION 2

How does authentication on the MFP device work?

A. After login, the MFP checks the user\\'s name and address via email to the local police station.

B. The user needs to supply a predefined user name and the correct device password After logging on, the MFP registers the user at the SMTP server.

C. The MFP verifies the user\\'s credentials first, using the selected authentication method. Then, an attempt is made to find the user\\'s e-mail address in the database of an LDAP server.

D. The user needs to supply valid credentials, such as user name and password. After logging on, the MFP sends an email to the administrator, who authenticates the user by pressing "confirm," written in the authentication email.

Correct Answer: C

QUESTION 3
