QUESTION 1

Universal Containers (UC) manufactures automobile engine components. UC wants to set up an ecommerce website to deliver a seamless customer purchasing experience, both through self-service and field sales. UC also wants to showcase its extensive product offerings, operate regional promotions and discounts, and managed routing and contracting. UC is looking for guidance on a Salesforce multi-cloud solution to be implemented across phases.

What should a Solution Architect recommend to meet UC's business requirements?

- A. Phase 1: Sales Cloud -- Phase 2: Service Cloud -- Phase 3: 626 Commerce
- B. Phase 1: Sales Cloud -- Phase 2: B2B Commerce -- Phase 3: Salesforce Field Service
- C. Phase 1: Service Cloud -- Phase 2: CPQ -- Phase 3: 626 Commerce
- D. Phase 1: Sales Cloud -- Phase 2: CPQ -- Phase 3: 626 Commerce

Correct Answer: D

QUESTION 2

AC Computers is hitting governor limits when trying to create orders and activate orders in Salesforce. Upon further investigation, it's discovered that AC Computers is trying to process hundreds of order products on a single order. The Order object also has various automation processes to update fields and integrate with a third-party order management system.

What is one solution a Solution Architect should evaluate first to resolve this issue?

- A. Create a custom object to hold orders in queue for processing.
- B. Review to determine if moving automation to asynchronous Apex is required.
- C. Enable Advanced Order Management to process large orders.
- D. Install a third-party solution to process large orders.

Correct Answer: D

QUESTION 3

Universal Containers (UC) is about to start a massive digital transformation project across multiple service channels. UC plans on using Service Cloud, Omni-Channel, chatbots, Knowledge, and Einstein AI throughout all the service capabilities. Before discovery can start, the key stakeholder would like to see the automated chat capabilities in action. They currently use a third-party Knowledge Base and are wondering what is the value of it over Salesforce Knowledge. They believe it will be chatbots but they are unsure.

What is one of the key benefits the Solution Architect should address within the context of the demo?

- A. Demo how the chatbot can provide a response to a customer's request by bringing together content from Knowledge articles.

- B. Demo how the chatbot can anticipate the responses of the customer before they make it, and generate Knowledge article responses based on what they have bought.
- C. Demo how the chatbot can utilize Knowledge within it to deflect customer issues before a case is created.
- D. Demo how a human being can have a real conversation with an Einstein AI-driven chatbot.

Correct Answer: C

QUESTION 4

Universal Containers (UC) is adding to its existing Salesforce implementation and currently uses Saks Cloud and Service Cloud. UC is looking to add Salesforce Field Service and Experience Cloud to allow its third-party contractors easier access to the data they need and to provide its customers a way to self-service.

UC has expressed interest in allowing its customers to be able to self-schedule maintenance work on their Assets. UC wants a solution to display scheduling options for the next month to its customers.

What should a Solution Architect consider in a potential solution?

- A. Lightning Web Components Calendar Module
- B. Appointment-Assistant Self Service Scheduling
- C. Salesforce Scheduler
- D. Standard Salesforce Asset Calendar

Correct Answer: C

QUESTION 5

A Solution Architect is working with Northern Trail Outfitters's Sales and Services team. They are currently evaluating how many environments they need to procure. As part of a preliminary review, it was identified that although the different business units were happy working in separate environments, there is a requirement to know each other's transactions.

Which two requirements would make the Solution Architect recommend a Single org over a multi-org strategy? Choose 2 answers

- A. Collaboration between lines of business
- B. Simple security architecture across lines of business
- C. Global case management across lines of business
- D. Access to shared lines of business data

Correct Answer: AD

QUESTION 6

Northern Trail Outfitters (NTO) is running a multi-cloud Salesforce implementation with lots of process integration between the clouds and other systems. During the project, NTO faces many challenges including a lack of agility and business value alignment, as well as silo-thinking. After trying different approaches, NTO begins to use Agile and is successful. The project manager now wonders what the recommended operating model would look like.

What should be a Solution Architect's first recommendation?

- A. NTO should set up an Operations team within IT to ensure proper management of the integrations going forward.
- B. NTO should set up a model of continuous backlog with teams aligned to the different clouds to drive efficiency and team collaboration.
- C. NTO should set up a model of continuous backlog with teams aligned to the different products (capabilities) to improve efficiency.
- D. NTO should establish a Scaled Agile Center of Excellence to continuously improve agility and time to market.

Correct Answer: D

QUESTION 7

Universal Containers (UC) is currently utilizing Sales Cloud and Revenue Cloud for its direct Sales team. UC would like to create an indirect Sales team with its vendors using Experience Cloud as the front end with the same kind of quoting functionality the direct Sales team uses within Revenue Cloud. However, UC wants to ensure that data from the internal direct Sales team is not visible to the external indirect Sales team in Experience Cloud.

What is the first configuration a Solution Architect should consider when implementing Experience Cloud in this scenario?

- A. Make internal organization-wide defaults Public Read Only to create external visibility.
- B. Enable External Sharing Model to create external organization-wide defaults.
- C. Start creating Sharing Sets for Experience Cloud users to access Sales Cloud.
- D. Add Indirect Sales Team to existing Direct Sales Team Role Hierarchy.

Correct Answer: B

QUESTION 8

Universal Containers (UC) acquired two companies. As part of its transformation and consolidation program, UC needs to bring all of its disparate partner strategies together and see what can be combined across all of its indirect sales channels. Each company currently has its own Salesforce environment utilizing Sales Cloud and Experience Cloud for Partners. Each company also follows its own unique business processes for partners. However, UC has recently developed a new vision and journey focused on a single indirect channel with a single Salesforce environment aligned to its corporate strategy.

Given UC's new journey for engaging its indirect channel, what are the next two steps the Solution Architect should recommend?

Choose 2 answers

- A. Completely unify all the channel strategies under the acquiring company's brand and strategy.
- B. Tell the stakeholders to focus on having a single Partner Community across all channels with a singular branding.
- C. Create an adoption plan for the Direct Sales team to engage with the Indirect Sales team in a sell-with model within the new Partner Communities.
- D. Identify the need for multiple Partner Communities by Indirect Sales Channel with branding and content specific to each channel.

Correct Answer: AB

QUESTION 9

A Solution Architect was asked by AC Computers to provide solution recommendations for a rebate enrollment and management solution on Salesforce. The primary goal and requirement is to easily launch rebate programs for partners that an administrator can implement and manage in Salesforce. AC Computers currently uses Sales Cloud, Salesforce CPQ, and Experience Cloud to expose opportunity and quote information to partners.

Based on the business requirements, which solution should the Solution Architect recommend?

- A. Implement a custom solution to track rebates, accruals, and actuals and expose the data in the Experience Cloud site.
- B. Implement Salesforce Service Contracts with line items to track rebate accruals and expose the data in the Experience Cloud site.
- C. Implement Salesforce Rebate Management Module and expose the data in the Experience Cloud site.
- D. Implement B2B Commerce on Lightning Experience to track rebates and expose the data in the Experience Cloud site.

Correct Answer: A

QUESTION 10

Recently, Universal Containers (UC) successfully launched a multi-cloud B2B implementation with Sales Cloud, Service Cloud, Experience Cloud, and B2B Commerce. As the Sales and Service Cloud development was performed by separate teams, UC created Process Builder automation for the Account object in separate Process Builder processes. As customers flow through the sales process within Sales Cloud, the data on their customer account record is updated. As those same customers make purchases within B2B Commerce, the data on their customer account record is updated as well.

What are two reasons why a Solution Architect should recommend uniting these into a single Process Builder process?

Choose 2 answers

- A. Moving them into a single Process Builder process helps to reduce the number of queries and avoid hitting limits on the Account object.
- B. Moving them into a single Process Builder process provides control over the order of the updates and actions triggered on the Account object.

- C. Moving them into a single Process Builder is the only way to ensure a naming convention is followed on the Account object.
- D. Moving one of the Process Builders into a flow will remove all automation conflicts on the Account object.

Correct Answer: AB

QUESTION 11

Universal Containers (UC) is about to undergo its first release of its digital transformation initiative across clouds like Sales Cloud, B2B Commerce, Marketing Cloud Account Engagement, Experience Cloud, and MuleSoft. UC recently developed its Center of Excellence (CoE) model and is working on how to make sure its developers and administrators can go through a continuous release cycle. The product owner would like to make sure no work is overridden in sandboxes or production.

What is the first thing a Solution Architect should recommend within UC's DevOps setup?

- A. Make sure the developers all have access to the CLI so that they can package and push their changes to the next environment.
- B. Appoint a release manager who will keep track of all changes made and which changes have been deployed to the QA, SIT, and UAT environments as part of the sprint.
- C. Appoint a release manager who will set up the required environments and automated deployments in tandem with a source control based development process.
- D. Set up a source control based development process that's understood and followed by administrators and developers.

Correct Answer: D

QUESTION 12

UC Foods, a global manufacturing organisation, builds and sells a variety of food processing equipment on its B2B Commerce site. Customers often tailor their equipment by selecting from several product variants. Depending on the options selected, an order will sometimes require manual intervention by a sales person to determine the price for the customized piece of equipment.

Once the machines have been purchased, each machine comes with a 1-year warranty, which entitles the customer to quarterly visits to inspect and perform maintenance on the machines to keep them in proper working order.

How can a Solution Architect use a multi-cloud solution to address the needs of the organization to efficiently support the selling of equipment and planning of quarterly visits for the machines?

- A. Use a third-party plugin configurator to support the selection of the product options, then create a CPQ quote when manual intervention is required. For the quarterly visits, use Field Service Maintenance Plans.
- B. Use the B2B Commerce aggregated product or dynamic kits to drive the selection of the product options, then create a CPQ quote when manual intervention is required. For the quarterly visits, use Field Service Maintenance Plans.
- C. Use the B2B Commerce aggregated product or dynamic kits to drive the selection of the product options, then automatically create a case when manual intervention is required. For the quarterly visits, use Service Contracts and Entitlements.

D. Use the B2B Commerce aggregated product or dynamic kits to drive the selection of the product options, then create a CPQ quote when manual intervention is required. For the quarterly visits, use Service Contracts and Entitlements.

Correct Answer: B

QUESTION 13

Universal Containers (UC) has implemented a new ecommerce site for its resellers. UC is leveraging a multi-cloud architecture, B2B Commerce, for building the storefront and Service Cloud Web2Case for offering case management

functionality to its resellers. UC notices that the case volume is extremely high and a number of resellers are raising cases for trivial issues on the B2B Commerce site.

Which two recommendations should a Solution Architect make to help resellers use the site more efficiently and lower the case volume?

Choose 2 answers

- A. Offload the number of cases received via Web2Case by using Email2Case.
- B. Implement Case Deflection.
- C. Disable anonymous users on the site.
- D. Plan and conduct User Adoption Trainings for resellers on how to use the site.

Correct Answer: AC

QUESTION 14

AW Computing (AWC) has just completed a multi-cloud implementation for Salesforce and is facing major user adoption challenges. Users are complaining that the system is complicated and hard to navigate.

What can the Center of Excellence (CoE) for Salesforce do to help increase user adoption?

- A. Place all training materials on the home page so users can find them easily.
- B. Record hour-long pieces of training for each job role so users can review on their own time.
- C. Break down training materials into quick reference guides for job-specific functions.
- D. Ensure each team has a Salesforce champion that can provide one-on-one training.

Correct Answer: A

QUESTION 15

Universal Export has implemented multiple Salesforce products and has made it clear that it wants to maximize its investment and avoid buying any new products. For the company's next release, its business requirements seem to be a close

fit for a product that Salesforce has. out it wants to develop a custom extension that replicates the functionality of that Salesforce module.

Which two actions should a Solution Architect take?

Choose 2 answers

- A. Begin requirements gathering for integrations and data migration
- B. Advise the customer to use the out-of-the-box approach to avoid unnecessary technical debt.
- C. Consult with the IT department to review the extension requirements.
- D. Evaluate the business benefit of the requested functionality to see if it justifies investment in the Salesforce product.

Correct Answer: BD
