QUESTION 1

A customer wants to perform a data center refresh. They want to standardize their backup infrastructure by using Dell EMC NetWorker and Data Domain in an integrated environment. The environment consists of:

A primary data center with NetWorker and Data Domain A disaster recovery (DR) data center with only Data Domain

All data is backed up to NetWorker using a DD Boost device. The data is then copied to the DR data center. Data for several critical systems needs to be retained for seven years on tape at the DR data center. In order to configure and track backup jobs, the entire solution must be managed from a single unified interface.

Which application interface should be used?

- A. NetWorker Management Console
- B. Data Domain Management Center
- C. Data Protection Advisor
- D. Backup and Recovery Manager

Correct Answer: A

QUESTION 2

How can the maximum capacity of 96 TB in the Dell EMC IDPA DP4400 be fully utilized?

- A. Set up full capacity during the deployment with IDPA System Manager
- B. Add disk packs of 12 TB and capacity licenses needed to be ordered
- C. Configure capacity with ACM; additional capacity is detected after disks are inserted
- D. Add additional capacity licenses with no additional hardware to purchase

Correct Answer: A

QUESTION 3

A company wants to leverage their cloud object storage account and move their long-term retention backups from their Dell EMC IDPA DP5300.

What is a recommended solution?

- A. Configure a CloudBoost virtual or physical appliance to move long-term retention backups to the cloud object storage
- B. Upgrade to a DP5800 and then add the Data Domain Cloud Tier license

C. License the Data Domain Cloud DR feature on the DP5300

D. Add the Cloud Tier metadata shelves to the DP5300 and then add the Data Domain Cloud Tier license

Correct Answer: A

QUESTION 4

In a Dell EMC RecoverPoint environment, which Consistency Group setting will help prevent application throttling for synchronous replication?

A. Snapshot Granularity

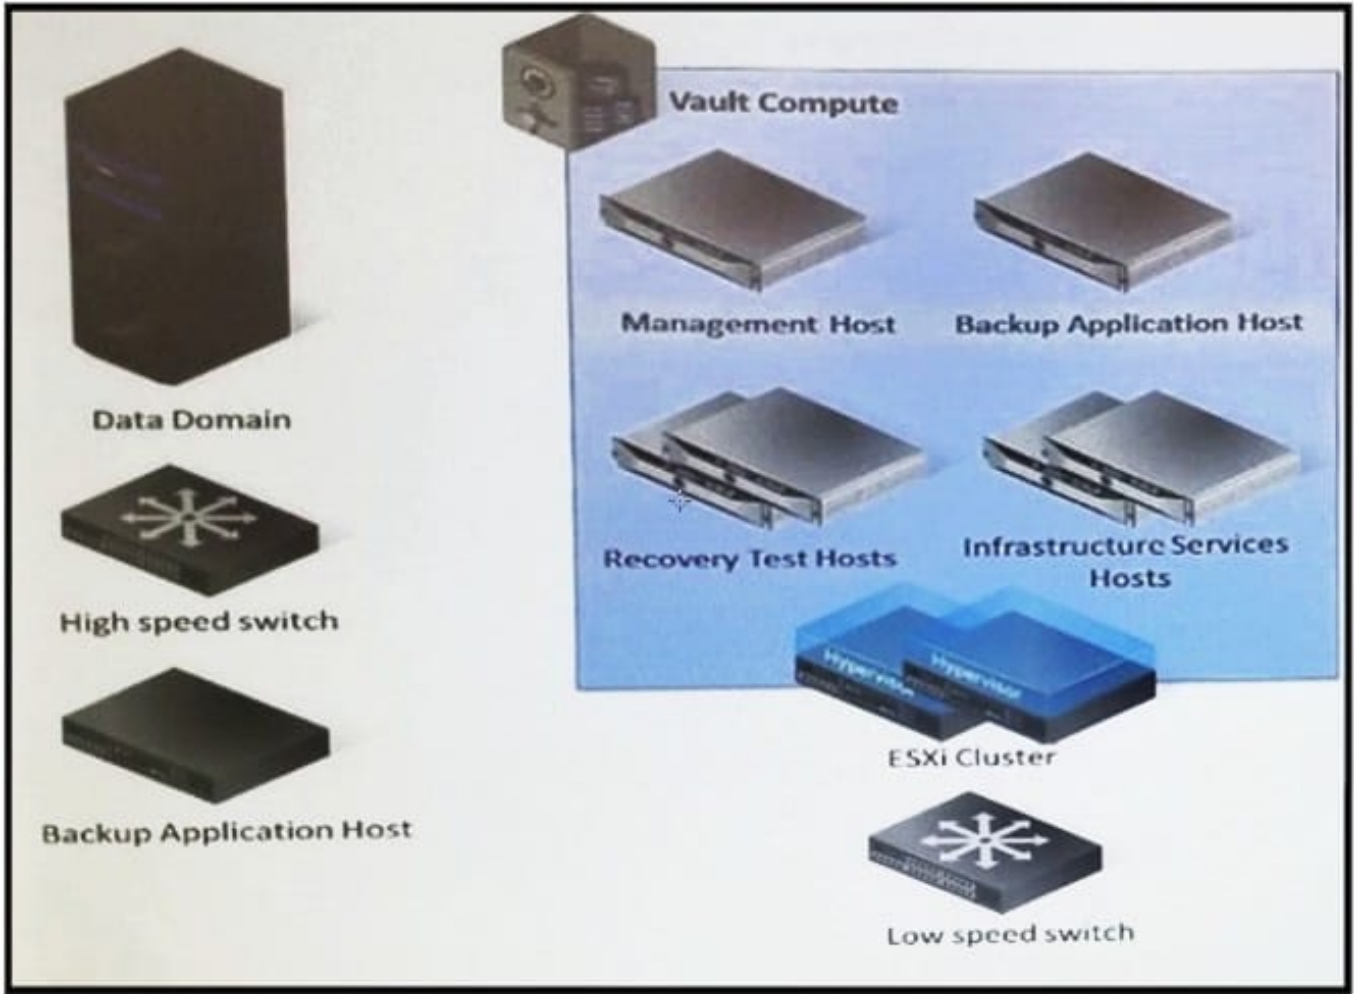

B. Dynamic by Latency

C. Deduplication

D. Compression

Correct Answer: B

QUESTION 5

Based on the exhibit, which Dell EMC Isolated Recovery Solution component includes compute and a hardened Data Domain?

- A. Backup Application Host
- B. Management Host
- C. Recovery Test Hosts
- D. Vault Compute

Correct Answer: C

QUESTION 6

When designing protection storage using Dell EMC DPS Storage Direct for a VMAX solution, which formula should be used to size the storage capacity?

- A. $(\text{Number of LUNs} * \text{Size}) * (\text{Copies} + 1)$
- B. $(\text{Number of LUNs} * \text{Size}) * (\text{Copies} + 2)$

C. (Number of LUNs +2* Size) * (Copies +1)

D. (Number of LUNs +2* Size) * (Copies +2)

Correct Answer: D

QUESTION 7

A customer has 6,000 desktops and laptops with 1 TB of data, an average backup time of 10 minutes each, and 10 TB of database data. The customer wants a solution that addresses the following requirements:

Deduplication in the shortest backup window with the fewest components
Least performance impact on the database servers

Which Dell EMC solution is recommended?

A. One Avamar 7.8 TB 3-node server integrated with a Data Domain system

B. Two Avamar 2.0 TB 5-node servers integrated with a Data Domain system

C. NetWorker with multiple deduplication nodes

D. NetWorker with integrated deduplication nodes and a Data Domain system

Correct Answer: B

QUESTION 8

What is the expected compression rate for protection operations with Dell EMC Data Domain Cloud DR before sending data to the cloud?

A. 45%

B. 50%

C. 60%

D. 65%

Correct Answer: B

QUESTION 9

A customer is using Dell EMC RecoverPoint for VMs with a four vNIC configuration. Which vRPA network component communicates with VMkernel ports in IP Communication mode?

A. LAN vNIC

- B. Management vNIC
- C. WAN vNIC
- D. Data vNIC

Correct Answer: A

QUESTION 10

A customer wants a technology refresh of their Dell EMC NetWorker environment. They want the ability to backup to disk devices. In addition, they want to write all backup-to-disk devices with eight savesets simultaneously. After reviewing the current environment, you discover that only two drives are used.

Which setting should be changed so that all drives are used simultaneously?

- A. Max sessions
- B. Device parallelism
- C. Target sessions
- D. Client parallelism

Correct Answer: A

QUESTION 11

You have been asked to perform an assessment of a customer's environment. The customer has given you complete access to their IT staff and environment.

During which stage of the assessment is it first learned about the databases, current backup software, and growth rates in the environment?

- A. Assumptions versus Reality
- B. Environmental Analysis
- C. Design Phase
- D. Interview Phase

Correct Answer: D

QUESTION 12

A customer is currently running VMs in two public cloud providers. As part of their overall data protection strategy, they

are interested in adding Dell EMC Cloud Snapshot Manager to their portfolio.

How many subscriptions does the customer need to purchase to protect their VMs in both public cloud accounts?

- A. One subscription per public cloud
- B. One subscription, per year, for the number or capacity of VMs
- C. One subscription for the cumulative number of all VMs
- D. One subscription for the cumulative capacity of all VMs

Correct Answer: A

QUESTION 13

You have been asked to conduct a review of a customer's current Dell EMC NetWorker backup infrastructure. They are looking for configuration, capacity, and performance information.

Which tool should be used?

- A. Workbench FSA Scan
- B. Dell EMC Backup System Sizer
- C. Live Optics
- D. Workbench GAP Analysis

Correct Answer: B

QUESTION 14

A customer has several branch offices with Dell EMC Data Domain integrated with Avamar deployed at all locations. The branch offices have minimal IT staff. The customer wants to keep a copy of the backups at their central data center which serves as their headquarters with a maximum IT staff. In addition, the customer wants to keep a copy in their public cloud account.

Which recommended solution meets the customer's requirements?

- A. Branch offices: Avamar/Data Domain replication to the central data center and Avamar tiering to the public cloud
Central data center: Avamar/Data Domain replication destination
- B. Branch offices: Data Domain MTree replication to the central data center
Central data center: Data Domain with Cloud Tier and Data Domain tiering to the public cloud
- C. Branch offices: Avamar/Data Domain replication to the central data center
Central data center: Avamar/Data Domain with Cloud Tier and Avamar tiering to the public cloud

D. Branch offices: Data Domain MTree replication to the central data center and Data Domain tiering to the public cloud
Central data center: Data Domain MTree replication destination

Correct Answer: C

QUESTION 15

In Dell EMC Data Protection Suite for Applications, which Application Direct agent supports Oracle 10gR2?

- A. Microsoft Application Agent
- B. Database Application Agent
- C. Oracle RMAN Agent
- D. Oracle Database Agent

Correct Answer: C
