QUESTION 1

You have a SharePoint Server farm and a Microsoft Office 365 subscription.

You implement hybrid search.

You discover that some search results are not hybrid search results. You discover that only the Domain Users security group is granted permissions to the content.

You need to resolve the issue.

What should you do?

- A. Configure all crawlers to use continuous crawls.
- B. Create a new user account. Grant the new user account permissions to the content. Modify the Default content access account to use the new user account.
- C. Add all users to a new domain group. Grant the new domain group permissions to the content. Perform a full crawl.
- D. Add all users as Search Service Application administrators. Perform a full crawl.

Correct Answer: C
